**Abdominal aortic aneurysms**
Abdominal aortic aneurysms surgery in over 75 years old patients. Experience in 142 cases treated between 1980-1989, 19.
Cardiological risk in patients undergoing abdominal aortic aneurysm surgery, 11.
Surgical treatment of abdominal aortic aneurysm. A ten-year experience (1980-1989) referred to 1725 patients operatied on, 131.

**Acute renal failure**
G.F.R. measuring with $^{99m}$Tc-DTPA limits in obstructive acute renal failure, 30.

**Adrenal adenoma**
Two pregnancies in a Cushing's syndrome. Case report, 44.

**Ageing, depression**
Psycological status and immunological parameters of institutionalized aged, 164.

**Ameliorating aging process**
The question of ameliorating the aging process, even macula regeneration with magnetic fields, 205.

**Aneurysms repair**
Abdominal aortic aneurysms surgery in over 75 years old patients. Experience in 142 cases treated between 1980-1989, 19.

**Antibiotic therapy**
Rational basis of modern therapy of bacterial meningitis. Review of the literature and our clinical experience of 122 pediatric cases, 185.

**Anus**
Questions about the uncertain presence of muscle spindles in the human external anal sphincter, 170.

**Arrhythmias**
Malignant ventricular arrhythmias: clinical guidelines for diagnosis and treatment, 191.

**Arteriopathies, peripheral**
Treatment of peripheral arteriopathies with a new low weight heparin, 197.

**Autoimmune thyroiditis**
Thyroid autoimmunity; really an important cause of sporadic congenital hypothyroidism?, 145.

**Bacterial meningitis**
Rational basis of modern therapy of bacterial meningitis. Review of the literature and our clinical experience of 122 pediatric cases, 185.

**Blood gas analysis**.
Pulmonary function in patients with pleural effusion of varying magnitude and fibrothorax, 86.
Pulmonary function in the patients submitted to lung exeresis, 1.

**Calcitonin**
Use of calcitonin in 20 patients suffering from postmenopausal osteoporosis. A proposal for a therapeutical scheme, 119.

**Cancer of the esophagus**
Cancer of the esophagus: ten years' experience, 121.

**Carcinoma of the prostate**
Prognostic determinants in the management of prostatica cancer in Ife, 111.

**Chlorthalidone**
Acute antihypertensive, diuretic and metabolic effects of etozolin and chlorthalidone, 157.

**Circadian rhythm**
Circadian rhythm of sinoatrial conduction time assessed by 24 hours ECG monitoring, 17.

**Coeliac disease**
Chemistry, coeliac-toxicity and detection of gluten and related prolamins in food, 65.
Determination of the gluten content of foods, 75.
Effects of small amounts of gluten in the diet of coeliac patients, 83.
The determination of prolamins in gluten-free food. Introductory remarks, 61.

**Conn's disease**
The concomitance of renal artery stenosis and Conn's adenoma in a hypertensive woman, 53.

**Copper**
Copper in human seminal plasma, 35.

**Coronary artery disease**
Cardiological risk in patients undergoing abdominal aortic aneurysm surgery, 11.
Correlation between angiographic success and functional improvement assessed by exercise test following percutaneous transluminal coronary angioplasty, 140.

**Corticosteroids**
Rational basis of modern therapy of bacterial meningitis. Review of the literature and our clinical experience of 122 pediatric cases, 185.

**Cortisol**
Effect of an inhibitor of PGE (flurbiprofen) on colony growth from normal and leukemic peripheral leukocytes in basal conditions and in presence of testosterone or cortisol, 26.

**Cushing's syndrome**
Two pregnancies in a Cushing's syndrome. Case report, 44.

**Cytomegalovirus**
CMV-specific polymeric and monomeric IgA antibodies in serum of renal transplant patients, 173.

**Depression**
Psychological status and immunological parameters of institutionalized aged, 164.

**Diabetes mellitus**
Noninvasive assessment of left ventricular function in asymptomatic diabetics and its relation to metabolic control and microangiopathy, 6.

**ECG monitoring**
Circadian rhythm of sinoatrial conduction time assessed by 24 hours ECG monitoring, 17.

**Epidemiology**
Multiple myeloma in L'Aquila and Avezzano, Italy, 1970-1989. Changes in incidence rates, symptoms at diagnosis, and survival, 37.

**Esophageal neoplasms**
Cancer of the esophagus: ten years' experience, 121.

**Essential hypertension**
Acute antihypertensive, diuretic and metabolic effects of etozolin and chlorthalidone, 157.

**Etozolin**
Acute antihypertensive, diuretic and metabolic effects of etozolin and chlorthalidone, 157.

**Exercise test**
Correlation between angiographic success and functional improvement assessed by exercise test following percutaneous transluminal coronary angioplasty, 140.

**Extrasystole**
Circadian rhythm of sinoatrial conduction time assessed by 24 hours ECG monitoring, 17.

**Fibrinolysis, locoregional**
Locoregional fibrinolysis using tissue plasminogen activator in 2 cases of acute thrombosis of the renal artery, 180.

**Fibrothorax**
Pulmonary function in patients with pleural effusion of varying magnitude and fibrothorax, 86.

**Flurbiprofen on CFU-GM**
Effect of an inhibitor of PGE (flurbiprofen) on colony growth from normal and leukemic peripheral leukocytes in basal conditions and in presence of testosterone or cortisol, 26.

**G.F.R.**
G.F.R. measuring with $^{99m}$Tc-DTPA: limits in obstructive acute renal failure, 30.

**Gliadin**
Chemistry, coeliac-toxicity and detection of gluten and related prolamins in food, 65.
Determination of the gluten content of foods, 75.
Effects of small amounts of gluten in the diet of coeliac patients, 83.
The determination of prolamins in gluten-free food. Introductory remarks, 61.

**Glomerular filtration rate**
G.F.R. measuring with $^{99m}$Tc-DTPA: limits in obstructive acute renal failure, 30.

**Gluten**
Chemistry, coeliac-toxicity and detection of gluten and related prolamins in food, 65.
Determination of the gluten content of foods, 75.
Effects of small amounts of gluten in the diet of coeliac patients, 83.
The determination of prolamins in gluten-free food. Introductory remarks, 61.

**Heart function tests**
Noninvasive assessment of left ventricular function in asymptomatic diabetics and its relation to metabolic control and microangiopathy, 6.

**Hepatosplenomegaly**
A father and son with visceral leishmaniasis. A description of the pediatric case, 57.

**Human external anal sphincter**
Questions about the uncertain presence of muscle spindles in the human external anal sphincter, 170.

**Human seminal plasma**
Copper in human seminal plasma, 35.

**Hypertension, essential**
Acute antihypertensive, diuretic and metabolic effects of etozolin and chlorthalidone, 157.

**Hypertension, renovascular**
The concomitance of renal artery stenosis and Conn's adenoma in a hypertensive woman, 53.

**Hypothyroidism**
Thyroid autoimmunity; really an important cause of sporadic congenital hypothyroidism?, 145.

**Immunoglobulins**
CMV-specific polymeric and monomeric IgA antibodies in serum of renal transplant patients, 173.

**Interleukins**
Psychological status and immunological parameters of institutionalized aged, 164.

**Kidney transplantation**
CMV-specific polymeric and monomeric IgA antibodies in serum of renal transplant patients, 173.

**Leishmaniasis, visceral**
A father and son with visceral leishmaniasis. A description of the pediatric case, 57.

**Leukemic peripheral leukocytes**
Effect of an inhibitor of PGE (flurbuprofen) on colony growth from normal and leukemic peripheral leukocytes in basal conditions and in presence of testosterone or cortisol, 26.

**Low weight heparin**
Treatment of peripheral arteriopathies with a new low weight heparin, 197.

**Lung function**
Pulmonary function in patients with pleural effusion of varying magnitude and fibrothorax, 86.
Pulmonary function in the patients submitted to lung exeresis, 1.

**Lymphocyte proliferation**
Psychological status and immunological parameters of institutionalized aged, 164.

**Macula regeneration**
The question of ameliorating the aging process, even macula regeneration with magnetic fields, 205.

**Malignant ventricular arrhythmias**
Malignant ventricular arrhythmias: clinical guidelines for diagnosis and treatment, 191.

**Microangiopathy**
Noninvasive assessment of left ventricular function in asymptomatic diabetics and its relation to metabolic control and microangiopathy, 6.

**Multiple myeloma**
Classification and prognostic evaluation in multiple myeloma. A retrospective study of relationship of survivals and responses to chemotherapy to immunological types, 20 single prognostic factors, 15 clinical staging systems, and 6 morphological classifications, 93.
Multiple myeloma in L'Aquila and Avezzano, Italy, 1970-1989. Changes in incidence rates, symptoms at diagnosis, and survival, 37.

**Muscle spindles**
Questions about the uncertain presence of muscle spindles in the human external anal sphincter, 170.

**Myeloma, multiple**
Classification and prognostic evaluation in multiple myeloma. A retrospective study of relationship of survivals and responses to chemotherapy to immunological types, 20 single prognostic factors, 15 clinical staging systems, and 6 morphological classifications, 93.
Mutiple myeloma in L'Aquila and Avezzano, Italy, 1970-1989. Changes in incidence rates, symptoms at diagnosis, and survival, 37.

**Obstructive uropathy**
G.F.R. measuring with $^{99m}$Tc-DTPA: limits in obstructive acute renal failure, 30.

**Old age**
Abdominal aortic aneurysms surgery in over 75 years old patients. Experience in 142 cases treated between 1980-1989, 19.
Psychological status and immunological parameters of institutionalized aged, 164.

**Operative risk factors**
Cardiological risk in patients undergoing abdominal aortic aneurysm surgery, 11.
Surgical treatment of abdominal aortic aneurysm. A ten-year experience (1980-1989) referred to 1725 patients operatied on, 131.

**Osteoporosis, postmenopausal**
Use of calcitonin in 20 patients suffering from postmenopausal osteoporosis. A proposal for a therapeutical scheme, 119.

**Para-sympayhetic tone**
Circadian rhythm of sinoatrial conduction time assessed by 24 hours ECG monitoring, 17.

**Parenteral hyperalimentation**
Total parenteral nutrition (TPN) in the critically ill patient, 115.

**Percutaneous transluminal coronary angioplasty**
Correlation between angiographic success and functional improvement assessed by exercise test following percutaneous transluminal coronary angioplasty, 140.

**Peripheral arteriopathies**
Treatment of peripheral arteriopathies with a new low weight heparin, 197.

**Peripheral CFU-GM**
Effect of an inhibitor of PGE (flurbuprofen) on colony growth from normal and leukemic peripheral leukocytes in basal conditions and in presence of testosterone or cortisol, 26.

**PGE on CFU-GM**
Effect of an inhibitor of PGE (flurbuprofen) on colony growth from normal and leukemic peripheral leukocytes in basal conditions and in presence of testosterone or cortisol, 26.

**Pleural effusion**
Pulmonary function in patients with pleural effusion of varying magnitude and fibrothorax, 86.

**Pneumonectomy**
Pulmonary function in the patients submitted to lung exeresis, 1.

**Popliteal artery entrapment syndrome**
Bilateral popliteal artery entrapment syndrome, 48.

**Postmenopausal osteoporosis**
Use o calcitonin in 20 patients suffering from postmenopausal osteoporosis. A proposal for a therapeutical scheme, 119.

**Pregnancy**
Two pregnancies in a Cushing's syndrome. Case report, 44.

**Prostaglandin $E_2$**
Acute antihypertensive, diuretic and metabolic effects of etozolin and chlorthalidone, 157.

**Prostatic cancer**
Prognostic determinants in the management of prostatica cancer in Ife, 111.

**Psychoneuroimmunology**
Psychological status and immunological parameters of institutionalized aged, 164.

**Puerperal ovarian vein**
Pulmonary embolisms secondary to puerperal ovarian vein thrombophlebitis, 152.

**Pulmonary embolism**
Pulmonary embolism secondary to puerperal ovarian vein thrombophlebitis, 152.

**Renal artery stenosis**
The concomitance of renal artery stenosis and Conn's adenoma in a hypertensive woman, 53.

**Renal failure, acute**
G.F.R. measuring with $^{99m}$Tc-DTPA: limits in obstructive acute renal failure, 30.

**Renin-angiotensin system**
Acute antihypertensive, diuretic and metabolic effects of etozolin and chlorthalidone, 157.

**Resuscitation**
Total parenteral nutrition (TPN) in the critically ill patient, 115.

**Semen**
Copper in human seminal plasma, 35.

**Sinoatrial conduction time**
Circadian rhythm of sinoatrial conduction time assessed by 24 hours ECG monitoring, 17.

**Strauss' formula**
Circadian rhythm of sinoatrial conduction time assessed by 24 hours ECG monitoring, 17.

**$^{99m}$Tc-DTPA**
G.F.R. measuring with $^{99m}$Tc-DTPA: limits in obstructive, acute renal failure, 30.

**Testosterone**
Effect of an inhibitor of PGE (flurbiprofen) on colony growth from normal and leukemic peripheral leukocytes in basal conditions and in presence of testosterone or cortisol, 26.

**Thrombophlebitis**
Pulmonary embolism secondary to puerperal ovarian vein thrombophlebitis, 152.

**Thrombosis of the renal artery**
Locoregional fibrinolysis using tissue plasminogen activator in 2 cases of acute thrombosis of the renal artery, 180.

**Thyroiditis, autoimmune**
Thyroid autoimmunity; really an important cause of sporadic congenital hypothyroidism?, 145.

**Tissue plasminogen activator (rtPA)**
Locoregional fibrinolysis using tissue plasminogen activator in 2 cases of acute thrombosis of the renal artery, 180.

**Total parenteral nutrition**
Total parenteral nutrition (TPN) in the critically ill patient, 115.

**Ventricular arrhythmias, malignant**
Malignant ventricular arrhythmias: clinical guidelines for diagnosis and treatment, 191.

**Visceral leishmaniasis**
A father and son with visceral leishmaniasis. A description of the pediatric case, 57.
